## PACKAGING, MARKING AND SHIPMENT

Where necessary, heavy parts or machines shall be mounted on skids or shall be crated, and any articles or materials that might otherwise be lost shall be boxed or wired in bundles and plainly marked for identification. All parts exceeding two hundred (200) pounds of gross weight shall be prepared for shipment so that slings for handling by the crane may be readily attached while the parts are on the car or transport truck. Boxed parts, where it is unsafe to attach slings to the box, shall be packed with slings attached to the part, the slings to project through the box or crate so that attachment to the hoisting equipment can be readily made.

All accessories and spare parts shall be packed separately in containers plainly marked, ACCESSORIES ONLY, or SPARE PARTS ONLY. A packing list, listing the contents of each container, shall be placed in a moisture-proof envelope and securely fastened to the outside of the container. The packing list shall provide the following information for each spare part or accessory in the container:

- (a) Manufacturer
- (b) Contract number
- (c) Identification, including the manufacturer's drawing number reference

Each spare part or accessory shall be identified so that it can be easily matched against its entry on the packing list.

As soon as each shipment is made shipping notices shall be submitted on which shall be shown, in addition to the usual data, a description of the article furnished, the item number of the contract schedule to which the article applies, the shipping weight of each item, the number of pieces, the total weight, and if shipped by railroad carload lots the car number.
